

CDG Joins Fiber Broadband Association

Champaign, IL – Communications Data Group, Inc. (CDG) announced it has joined the Fiber Broadband Association, an organization that is dedicated to accelerating the deployment of fiber broadband networks to ensure every community can leverage the economic and societal benefits that only fiber can deliver.

“The Fiber Broadband Association welcomes CDG to its membership. Our association thrives on the knowledge, hard work, and collaboration of our members, and we know that CDG will be an asset to our organization,” said Gary Bolton, President and CEO at the Fiber Broadband Association. “Together, we will work to provide advocacy, education, and resources for the advancement of fiber broadband technology to close the digital equity gap and create a better quality of life for everyone.”

As a member of the Fiber Broadband Association, CDG looks forward to attending the FBA’s industry-leading conferences and webinars and being an active member of the community of broadband network operators and industry suppliers who can learn from each other’s successes and common challenges.

“CDG is committed to developing and deploying innovative, operator-informed OSS/BSS solutions, and we are pleased to join an organization dedicated to accelerating the deployment and advancement of fiber networks,” said Jason Dandridge, CEO at CDG. “We look forward to connecting with FBA members and sharing our mission to deliver the best OSS/BSS platform for BSPs on the market.”

About the Fiber Broadband Association

The Fiber Broadband Association is the largest and only trade association that represents the complete fiber ecosystem of service providers, manufacturers, industry experts, and deployment specialists dedicated to the advancement of fiber broadband deployment and the pursuit of a world where communications are limitless, advancing quality of life and digital equity anywhere and everywhere. The Fiber Broadband Association helps providers, communities, and policy makers make informed decisions about how, where, and why to build better fiber broadband networks. Since 2001, these companies, organizations, and members have worked with communities and consumers in mind to build the critical infrastructure that provides the economic and societal benefits that only fiber can deliver. The Fiber Broadband Association is part of the Fibre Council Global Alliance, which is a platform of six global FTTH Councils in North America, LATAM, Europe, MEA, APAC, and South Africa.
