# CDG New Product Updates and Releases

## Manage Data, Bill Wisely and Grow Your Business

---

Dedicated to billing, Revenue Assurance, OSS products and hosted solutions that advance our clients' ability to provide excellent customer experiences and accurate invoices, CDG continues to enhance all of our product lines.

---

### HOSTED SOLUTIONS

CDG continues to expand our line of Hosted Solutions. Exchange backup, web hosting, virtual application hosting and virtual desktop services are all currently being developed.

CDG's new Hosted Solutions backup services offer secure, reliable and scalable data replication to a SAS70-compliant data center using HIPPA-compliant software. In-transit and disk encryption, redundant power supply, network connectivity and storage via RAID-5 disk arrays ensure data integrity and safety. Reselling options of CDG's Hosted Solutions are also available to help boost your revenue potential.

### MODULARITY BILLING SYSTEM (MBS)

CDG's re-envisioned MBS billing product is now in use by customers. The highly upgraded version of this web-based application features enhanced usability; consolidated, concise navigation; and refreshed E-Care billing, Cash Drawer, and related OSS modules. Future developments include more self-care opportunities, enhanced Trouble diagnostics, and management dashboard analytics.

### CARRIER ACCESS BILLING SYSTEM (CABS)

CDG's CABS Version 49 is being released to its customers. Version 49 includes C/BOS, Bill Data Tape (BDT), Customer Service Record (CSR), and paper invoice updates, as well as many enhancements to help customers' grow their CABS revenue.

CDG's is also exploring the requirements for developing the ability to apply a new percent to unknown jurisdictional usage to influence carriers to correct their switching equipment to deliver accurate signaling information in their message records. The new percentage will support CDG's clients' filed state tariffs and a percentage of the usage will be factored to the intrastate jurisdiction where higher access rates will apply.

To receive the free white paper, *Defining CABS Jurisdictions Produces Revenue*, authored by CDG's strategic partner Jon Jones of Data Tech, visit [www.cdg.ws/whitepaper](http://www.cdg.ws/whitepaper).

---

### THE BOTTOM LINE

CDG provides CABS, Mediation, Customer Care, Plant, Trouble, Service Activation Manager, E-Care, company work-flow management and third-party financial, mapping and facilities management products, business consulting and hosted backup services. Online and licensed options are available. CDG can help you manage information, bill wisely, and grow your business.
