WALDRON TELEPHONE COMPANY AND SAND CREEK COMMUNICATIONS  
IMPLEMENT CDG'S MBS CONSUMER BILLING AND BDS-I SOLUTIONS

Champaign, IL – Communications Data Group (CDG) is pleased to announce the recent implementation of its BDS and access billing solution, BDS-I, and online subscriber billing and customer care system, MBS, at Waldron Telephone Company and Sand Creek Communications, two leading regional providers of communication services in Michigan.

The implementation of CDG's BDS-I and MBS systems for these companies adds two new Michigan telecom service providers to CDG's client base of more than 90 companies. CDG also recently signed a contract for BDS-I and MBS services with another area communication services provider, as well as adding CDG's MBS consumer and enterprise billing application for another existing CDG client based in Michigan. With these recent additions, CDG is now the billing provider for six companies in the state. According to Jerry Barnes, CDG's Account Executive for the region, "Michigan offers great opportunities for CDG to grow our client base, due to its wealth of stable ILEC providers and established and newer CLECs. With these new additions and our increased investment in the region and as associate member of TAM, we hope to raise awareness about the outstanding billing and management solutions and superior support that CDG has to offer."

About CDG: CDG offers scalable, accurate billing and operational support solutions for voice, video, and data for retail and wholesale telecommunications carriers and service providers. Options include: BDS, Interconnect, CABS, Mediation, Customer Care, Network / Plant, Trouble, Service Provisioning, E-Care, Task Management, CRM / Prospects, and third-party financial, mapping, and facilities management products. Service bureau, hosted, and licensed options are available. Visit our website at [www.cdg.ws](http://www.cdg.ws) to learn more.
